Market Scope in near future:

- ❑ India's emerging markets are opening the door towards bright future growth.
- ❑ Currently the percentage of investments of Indian in the domestic stock markets are very less (<2-3% of population).
- ❑ But with the expected growth in GDP and steady financial markets, more money will come into the picture.
- ❑ ** There is huge scope for Education/Training/Trading in stock markets.

Open a Demat account & Trading account

- ❖ At Brokerage Firm like B.N Rathi Securities Ltd thru Sub-broker : **Elitexservices** – which would render all the services at client's door step.
 - ❖ **Demat Account** - Demat account is a type of account where shares are held in electronic form, thereby eliminates the need for physical paper certificates.
 - ❖ **Trading Account** - Trading Account is a type of account which allows investors to buy and sell or simply trade in shares/ ETFs. It allows trading of securities with the money deposited with a financial institution or brokerage firm.
- * The broker will send a bill and ledger account on the date of trade by evening and also investor will get a sms on his registered mobile from NSE for the each and every trade he/she does instantly.

Our Proposal :

- Many people invest /trade without proper knowledge and lives in risk zone when markets are volatile.
- Follow our simple steps for your long term investments in Indian markets
- We advise you to put your hard earned money into the best performing company's stocks for long term and any draw-down / notional loss will be protected through our Innovative concept called “ Insure Trading Risk @ Derivative Hedging ”with zero cost.
- So, you will have opportunity to make profits even when markets are falling OR rising, Whatever the profits you made is all yours.
- No limit for investments as long as its not affecting your daily life.
- All our recommendations / services are at very nominal charges.

Our Strategy :

- Equity / Stock buying for long term from our most profitable market watch list
- We have selective most profitable 50+ scripts in our list
- Which gives 10%-15% minimum appreciation on Year-to-Year
- Since markets are volatile, we secure any draw-down on the stock price through Derivative Hedging / Insurance
- And profits you earn on such hedging are BONUS on month-to-month basis.
